September 2018

Dear Parents and Guardians:

New York State Education Law Section 409-H, effective July 1, 2001, requires all public and non-public elementary and secondary schools to provide written notification to all persons in parental relation, faculty and staff regarding the potential use of pesticides periodically throughout the school year.

The Cleary School for the Deaf is required to maintain a list of persons in parental relation, faculty and staff who wish to receive 48 hour prior written notification of certain pesticide applications. The following pesticide applications are not subject to prior notification requirements:

- A school remains unoccupied for a continuous 72 hours following an application
- Anti-microbial products
- Non-volatile rodenticides in tamper resistant bait stations in areas inaccessible to children
- Silica gels and other non-volatile ready to use pastes, foams or gels in areas inaccessible to children
- Boric acid and disodium octaborate tetrahydrate
- The application of EPA designated biopesticides
- The application of EPA designated exempt materials under 40CFR152.25
- The use of aerosol products with a directed spray in containers of 18 fluid ounces or less when used to protect individuals from an imminent threat from stinging and biting insects including venomous spiders, bees, wasps and hornets.

In the event of an emergency application to protect against an imminent threat to human health, a good faith effort will be made to supply written notification to those on the 48 hour prior notification list.

If you would like to receive 48 hour prior notification of pesticide applications that are scheduled to occur in your school, please complete the attached form and return to:

Cleary School for the Deaf, Pesticide Representative
301 Smithtown Boulevard
Nesconset, NY 11767

Please feel free to contact me for further information on these requirements.

Sincerely,

[Signature]
Jacqueline Simms, Ed.D
Executive Director
Pesticide Notification Request

Cleary School for the Deaf

I would like to receive notification 48 hours before the application of pesticides when application is required in my child’s school.

PRODUCT LIST

CLEARY 3336WP FUNGICIDE – EPA REG. #1001-63

AS PER LABEL OF UNDILUTED PRODUCT:
Active Ingredients: Dimethyl 4, 4-o-phenylenebis-(3,thioallophanate).....50%
CAUTION: KEEP OUT OF REACH OF CHILDREN

STATEMENT OF PRACTICAL TREATMENT:
  • IF SWALLOWED: Drink 1 or 2 glasses of water, induce vomiting by touching the back of the throat, contact a physician or poison control center.
  • IF INHALED: Remove to fresh air
  • IF ON SKIN: Wash exposed areas with soap and water, seek medical attention as needed.
  • IF IN EYES: Flush eyes with water, contact a physician for irritation as needed.

PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals:
Harmful if swallowed, inhaled or absorbed through the skin. May cause irritation of eyes, nose throat, and skin. Avoid breathing dust and contact with eyes and skin. Do not graze animals on treated turf. Do not feed clippings to livestock or poultry.

ENVIRONMENTAL HAZARDS: For terrestrial uses, do not apply directly to water, where surface water is present, or to intertidal areas below the mean high water mark. Application equipment should be thoroughly cleaned after use. Do not contaminate water when disposing of equipment washwater. Do not apply, allow to drift, or drain, or flush equipment onto non-target areas.

_____________________

DAMOIL – EPA REG #19713-123

AS PER LABEL OF UNDILUTED PRODUCT:
Active Ingredient: Petroleum Oil
CAUTION: KEEP OUT OF REACH OF CHILDREN

STATEMENT OF PRACTICAL TREATMENT:
  • IF SWALLOWED: Do not induce vomiting. Call physician or Poison Control Center.
  • IF IN EYES: Immediately flush eyes with plenty of water. Call a physician if irritation persists.
  • IF ON SKIN: Immediately remove contaminated clothing, including shoes, and wash skin with soap and plenty of water. Call physician if irritation persists.

PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals: CAUTION: harmful if swallowed. Avoid breathing of spray, contact with skin and eyes.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.
MAUGET IMICIDE 2ML INSECTICIDE – EPA REG. #7946-16
SYSTEMIC TREATMENT BY MICRO INJECTION

AS PER LABEL OF UNDILUTED PRODUCT:
Active Ingredients: Imidacloprid 1 (6-Chloro-3-pyridinyl)-N-nitro-2-idadzolidinimine. 10.0%
Inert Ingredients: .................................................................90.0%

CAUTION KEEP OUT OF REACH OF CHILDREN

STATEMENT OF PRACTICAL TREATMENT:
- IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger, or if available by administering syrup of ipecac. If person is unconscious, do not give anything by mouth and do not induce vomiting.
- IF ON THE SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.
- IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.
- NOTE TO PHYSICIAN: No specific antidote is available. Treat the patient symptomatically.
- IN CASE OF EMERGENCY: 1-(800) 535-5053 is the telephone number of the Infotrac Chemical Emergency Response System

PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals.
CAUTION: Applicator must wear waterproof gloves and face shield when applying this product. Harmful—if swallowed or absorbed through the skin. Avoid contact with skin, eyes or clothing. Causes eye irritation. Wash thoroughly with soap and water after handling. Avoid breathing vapors. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and wildlife. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

FORAY 48B a/k/a “BT” – EPA REG #275-116

AS PER LABEL OF UNDILUTED PRODUCT:
Active Ingredient: Bacillus thuringiensis subspp. kurstaki. Lepidopteran Active Toxin. 2.1%

CAUTION: KEEP OUT OF REACH OF CHILDREN

STATEMENT OF PRACTICAL TREATMENT:
- IF ON SKIN: Wash with plenty of soap and water. Get medical attention.
- IF IN EYES: Flush with plenty of water. Call a physician if eye irritation persists.

PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals: Causes moderate eye irritation. Avoid contact with skin, eyes, open wounds or clothing. Wash thoroughly with soap and water after handling.
ENVIRONMENTAL HAZARDS: Do not contaminate water when disposing of equipment washwaters.
PRODUCT LIST (Continued)

K+NEEN – EPA REG. #70191-1

AS PER LABEL OF UNDILUTED PRODUCT:
Active Ingredient: Potassium salts of fatty acids... 25.0%
CAUTION: KEEP OUT OF REACH OF CHILDREN
STATEMENT OF PRACTICAL TREATMENT:
- IF IN EYES: Hold eyelids open and flush with steady stream of water for 15 minutes. Get medical attention.
- IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals:
CAUTION: Harmful if inhaled. Causes moderate eye and skin irritation. Avoid contact with skin, eyes or clothing or breathing mist. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS: This product may be hazardous to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. This product is toxic to bees exposed to direct treatment. Do not apply where bees are actively visiting the treatment area.

SUNSPRAY 6E – EPA REG. #862-11

AS PER LABEL OF UNDILUTED PRODUCT:
Active Ingredient: Refined Petroleum Distillate......98.8%
CAUTION: KEEP OUT OF REACH OF CHILDREN

STATEMENT OF PRACTICAL TREATMENT:
- IF SWALLOWED: Do not induce vomiting. Call a physician immediately.
- IF ON SKIN: Wash with soap and water.
- IF INHALED: Move to fresh air.
- IF IN EYES: Flush with water.

PRECAUTIONARY STATEMENTS: Hazards to human and domestic animals: Avoid contact with eyes, skin and clothing. Harmful if swallowed. Avoid breathing of spray mist or vapors. Avoid contamination of food or foodstuffs.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.
PRODUCT LIST (Continued)

ULTRAFINE OIL – EPA REG #862-23-499

AS PER LABEL OF UNDILUTED PRODUCT:
Active Ingredient: Paraffinic Oil

CAUTION: KEEP OUT OF REACH OF CHILDREN
STATEMENT OF PRACTICAL TREATMENT:
- IF SWALLOWED: Do not induce vomiting. Call a physician immediately.
- IF ON SKIN: Wash with soap and water.
- IF INHALED: Move to fresh air.
- IF IN EYES: Flush with water.

PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals. Avoid contact with eyes, skin and clothing. Harmful if swallowed. Avoid breathing of spray mist or vapors. Avoid contamination of feed or foodstuffs.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

COMPASS FUNGICIDE – EPA REG #100-920

AS PER LABEL OF UNDILUTED PRODUCT:
Active Ingredient: Trioxystrobin (CAS #141517-21-7)......50.0%

CAUTION: KEEP OUT OF REACH OF CHILDREN
STATEMENT OF PRACTICAL TREATMENT – FIRST AID:
- IF IN EYES: Flush eyes with plenty of water. Get medical attention if irritation persists.
- IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

NOTE TO PHYSICIAN: If ingested, induce emesis or lavage stomach. Treat symptomatically.

PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals. CAUTION: Causes moderate eye irritation. Harmful if absorbed through skin. Prolonged or frequent repeated skin contact may cause allergic reactions in some individuals. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic invertebrates. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.
PRODUCT LIST (Continued)

ORTHO HOME ORCHARD SPRAY – EPA REG #239-568

AS PER LABEL OF UNDILUTED PRODUCT:
Active Ingredients: * CAPTAN – Fungicide.................................14.0%
                    Related derivatives........................................0.3%
                    MALATHION – Insecticide 0.0-Dimethyl-phosphorodithioate of
                    diethyl mercaptosuccinate......................................7.5%
                    ** METHOXYCHLOR 1,1,1 trichloro-2,2-bis
                    (p-methoxyphenyl) ethane........................................15.0%
Inert Ingredients: ..................................................................62.5%
* N-trichloromethylthio-4-cyclohexene, 1,2-dicarbamimide
** Equivalent to 13.2% 1,1,1-trichloro 2-2 bis (p-methoxyphenyl) ethane and 1.8%
other isomers and related compounds.

DANGER: KEEP OUT OF REACH OF CHILDREN

STATEMENT OF PRACTICAL TREATMENT – FIRST AID:
• IF IN EYES: Hold eyelids open and flush with a steady stream of water and see a doctor.
• IF SWALLOWED: Give milk or water to drink and telephone for medical advice.
Consult medical personnel before inducing vomiting. If medical advice cannot be
obtained, then take person and product container to nearest medical emergency treatment
center or hospital. Note to Physicians: Emergency information call 1-800-454-2333.
Malathion is a cholinesterase inhibitor. If signs and symptoms of cholinesterase
inhibition develop, atropine is antidotal. 2-PAM is also antidotal and may also be given in
conjunction with atropine but should never be used alone.

PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals.
DANGER: Causes irreversible eye damage. Do not get in eyes or on clothing. Wear goggles
when handling. Harmful if swallowed. May cause allergic skin reactions. Wash thoroughly
with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish, aquatic invertebrates, and
aquatic life stages of amphibians. Do not apply directly to water. Drift and runoff may be
hazardous to aquatic organisms in areas near the application site. Do not clean equipment or
dispose of equipment washwaters in a manner that will contaminate water resources. This
product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not
apply this product, or allow it to drift to blooming crops or weeds, if bees are visiting the
treatment area.

GARLIC BARRIER AG+ – EPA REG. #66352-2

Active Ingredient: Garlic Juice....99.3%
No warnings or cautions.
PRODUCT LIST (Continued)

CARBARYL 4L INSECTICIDE – EPA REG #19713-49

AS PER LABEL OF UNDILUTED PRODUCT:
Active Ingredients: Carbaryl (1-naphthyl N-methylcarbamate)……..43.0%
Other Ingredients: ..............................................................................57.0%
Total: .................................................................................................100.0%

CAUTION: KEEP OUT OF REACH OF CHILDREN
STATEMENT OF PRACTICAL TREATMENT: Carbaryl is an N-methyl carbamate insecticide.

- IF SWALLOWED: Never give anything by mouth to an unconscious or convulsing person. If conscious and not convulsing, drink 1 to 2 glasses of water and induce vomiting by touching back of throat with finger. Get medical attention.
- IF IN EYES: Flush eyes with plenty of water. Get medical attention if irritation persists.
- IF ON SKIN: Wash thoroughly with soap and water.
- IF INHALED: Move from contaminated atmosphere and call a physician.

GENERAL: Contact a physician immediately in all cases of suspected poisoning. Transport to a physician or hospital immediately and SHOW A COPY OF THE LABEL TO THE PHYSICIAN. If poisoning is suspected in animals, contact a veterinarian.

ANTIDOTE STATEMENT: Atropine sulfate is highly effective as an antidote. Narcotics and other sedatives should not be used. Further, drugs like 2-PAM (pyridine-2-aldoxime methiodide) are NOT recommended. See “Note to Physician”.

NOTE TO PHYSICIAN: Treat symptomatically. Overexposure to materials other than this product may have occurred. Carbaryl is an N-methyl carbamate insecticide, which is a cholinesterase inhibitor. Overexposure to this substance may cause toxic signs and symptoms due to stimulation of the cholinergic nervous system. These effects of overexposure are spontaneously and rapidly reversible. Gastric lavage may be used if this product has been swallowed. Carbaryl poisoning may occur rapidly after ingestion and prompt removal of stomach contents is indicated.
Specific treatment consists of parenteral atropine sulfate. Caution should be maintained to prevent over atropinization. Improve tissue oxygenation as much as possible before administering atropine to minimize the risk of ventricular fibrillation. Mild cases may be given 1 to 2 mg intramuscularly every 10 minutes until full atropinization has been achieved and repeated thereafter whenever symptoms reappear. Severe cases should be given 2 to 4 mg. intravenously every 10 minutes until fully atropinized, then intramuscularly every 30 to 60 minutes as needed to maintain the effect for at least 12 hours. Dosages for children should be appropriately reduced. Complete recovery from overexposure is to be expected within 24 hours. Narcotics and other sedatives should not be used. Further, drugs like 2-PAM (pyridine-2-aldoxime methiodide) are NOT recommended. To aid in confirmation of a diagnosis, urine samples should be obtained within 24 hours of exposure and immediately frozen.
DESCRIPTION OF AVAILABLE TREATMENTS AND MATERIALS TO BE USED

APRIL

DORMANT OIL – DREXEL DAMOIL  EPA REG#19713123
To Control: Aphid, adelgid, scales, some mites & white flies.

APRIL, MAY, JUNE – FUNGICIDE SPRAY

CLEARY 3336 SYSTEMIC FUNGICIDE  EPA REG #100163
To Control: Leaf scabs & rust on crabapple trees

ORTHO HOME ORCHARD  EPA REG #239568
Multipurpose Spray
To Control: Many fruit insects & diseases

MAY & JUNE FOLIAGE SPRAY

FORAY 48-B BACILLUS THURINGIENSIS  EPA REG #275-116
To Control: Tent caterpillar, cankerworms, gypsy moth & bagworm

OR
ORTHENE ORNAMENTAL INSECTICIDE  EPA REG #59639-26
To Control: Cankerworm, gypsy moth, vine weevil, aphids, & birch leaf miner

OR
CARBARYL 4L INSECTICIDE  EPA REG #19713-49
To Control: Cankerworm & gypsy moth caterpillars

JULY & AUGUST SPRAY AS NEEDED

DREXEL DAMOIL DORMANT AND SUMMER OIL  EPA REG #19713123

OR
ULTRA FINE OIL  EPA REG #862-23-499
To Control: Aphids, adelgid, some mites & scales

OCTOBER

DREXEL DAMOIL DORMANT & SUMMER OIL  EPA REG #19713123
To Control: Hemlock woolly adelgid

TREE INJECTION AS NEEDED

MAUGET IMICIDE  EPA REG #7946-16
To Control: Bronze birch borer, scale insects, leaf miner, adelgid & aphids
CARBARYL 4L INSECTICIDE – EPA REG #19713-49 (continued from page 6)

PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals.
CAUTION: Harmful if swallowed, absorbed through skin, inhaled or if in eyes. Avoid
contact with eyes, skin or clothing. Keep out of reach of children and domestic animals.
OVEREXPOSION MAY CAUSE: Salivation, watery eyes, pinpoint eye pupils, blurred vision,
muscle tremors, difficult breathing, excessive sweating, abdominal cramps, nausea, vomiting,
diarrhea, weakness, headache. IN SEVERE CASES, CONVULSION, UNCONSCIOUSNESS
AND RESPIRATORY FAILURE MAY OCCUR. SIGNS AND SYMPTOMS MAY OCCUR
RAPIDLY FOLLOWING OVEREXPOSURE TO THIS PRODUCT.

ENVIRONMENTAL HAZARDS: This product is extremely toxic to aquatic and estuarine
invertebrates. For terrestrial uses, do not apply directly to water or to areas where surface water
is present or to intertidal areas below the mean high water mark. Discharge from rice fields may
kill aquatic and estuarine invertebrates. Do not apply when weather conditions favor drift from
area treated. Do not contaminate water by cleaning equipment of disposal of wastes. Do not
contaminate water when disposing of equipment washwaters.

ORTHENE INSECTICIDE – TURF, TREE & ORNAMENTAL SPRAY –
EPA REG #59639-26 –

AS PER LABEL OF UNDILUTED PRODUCT:
Active Ingredient: Acephate (O,S-Dimethyl acetylphosphoramidothioate) .......... 75.0%
Inert Ingredients: ........................................................................................................ 25.0%

CAUTION: KEEP OUT OF REACH OF CHILDREN
STATEMENT OF PRACTICAL TREATMENT:
Acephate is an organophosphate, cholinesterase inhibitor.
- IF SWALLOWED: Drink 1 or 2 glasses of water (or milk) and induce vomiting by
touching the back of the throat with finger. If possible contact a physician, Poison
Control Center, or emergency center before inducing vomiting. Do not induce vomiting
or give anything by mouth to an unconscious person. Take person and product container
to the nearest emergency treatment center.
- IF IN EYES: Wash eyes with fresh water for 15 minutes. If irritation continues, see a
doctor.
- IF ON SKIN: Wash skin with plenty of soap and water.
- IF INHALED: Remove person from exposure area.

Note to Physicians: Emergency Information – call 1-800-892-0099. Acephate is a
cholinesterase inhibitor. If signs of cholinesterase inhibition appear, atropine is antidotal.
2-PAM may also be used in conjunction with atropine but should not be used alone.
ORTHENE INSECTICIDE – TURF, TREE & ORNAMENTAL SPRAY –
EPA REG #59639-26 (continued from page 7)

PRECAUTIONARY STATEMENT: Hazards to humans and domestic animals. CAUTION: Harmful if swallowed. Causes eye irritation. Avoid contact with eyes, skin and clothing. Avoid breathing dust or spray mist. Wash hands thoroughly after handling. Do not allow children or pets to come into contact with treated areas until sprays have dried.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to birds. Applications may adversely affect birds in rangeland treatment areas. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Cover or soil-incorporate spills. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.
For Use by Individuals/Firms licensed by the State to apply termiteicide and/or ornamental and lawn products. States may have more restrictive requirements regarding qualifications of persons using this product. Consult the pest control regulatory agency of your State prior to use of this product.

EPA Reg. No. 279-3206

Active Ingredient: 

Bifenthrin* .................................................. 7.9% 

Other Ingredients: ........................................... 92.1% 

Talstar contains ½ pound active ingredient per gallon.

*Cis isomers 97% minimum, trans isomers 3% maximum.
U.S. Patent No. 4,238,505

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by hitching back of throat with finger. Do not induce vomit or give anything by mouth to an unconscious person.

If Inhaled: Remove patient to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

If on Skin: Wash with plenty of soap and water. Get medical attention.

If in Eyes: Flush with plenty of water. Call a physician if irritation persists.

Note to Physician:
This product is a pyrethroid. If large amounts have been ingested, the stomach and intestine should be evacuated. Treatment is symptomatic and supportive. Digestible fats, oils, or alcohol may increase absorption and so should be avoided.

For Emergency Assistance Call (800) 331-3148
See other panels for additional precautionary Information.

PRECAUTIONARY STATEMENTS

Hazards to Humans (and Domestic Animals)

CAUTION

Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoids clothing. Wash thoroughly with soap and water after handling. Remove clothing and wash before reuse.

All pesticide handlers (mixers, loaders and applicators) must wear long sleeved shirt and long pants, socks, shoes and chemical-resists gloves. After the product is diluted in accordance with label directions use, and/or when mixing and loading using a closed spray tank transfer system (such as U-Turn), or an in-line injector system, shirt, pant socks, shoes and waterproof gloves are sufficient. In addition, all pesticide handlers must wear a respiratory protection device when working in a non-ventilated space. All pesticide handlers must wear protective eyewear when working in a non-ventilated space and/or when applying to insects by rodding crickets into the soil.

Use one of the following: Health and Safety Administration (OSHA) / National Institute for Occupational Safety and Health (NIOSH) air purifying respirator types with approval number prefixes such as: TC-22C, TC-21C, TC-19C, TC-13F and TC-14G.

When making adjacent to an existing structure, the applicator must check the areas to be treated, and immediately adjacent areas of the structure, for visible and accessible cracks and holes to prevent an exit or significant exposure to persons occupying the structure.

People present or residing in the structure during application must be advised to remove their pets and themselves from the structure if the see any signs of leakage. After application, the applicator is required to check for leaks. All leaks resulting in the deposition of termicides in locations other than those prescribed on this label must be cleaned up prior to leaving the application site. Do not allow people or pets to contact contaminated areas or to reoccupy contaminated areas of the structure until the clean-up is completed.

Environmental Hazards

This pesticide is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and run-off from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwater. Care should be taken when spraying to avoid fish and reptile pets in/around ornamental ponds.

This product is highly toxic to bees exposed to direct treatment residues on blooming crops or weeds. Do not apply this product to allow to drift to blooming crops if bees are visiting the treatment area.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply by air.

Do not apply in greenhouses, nurseries.

Do not apply this product through any kind of irrigation system.

Not for use on sod farm turf, golf course turf, or grass grown for seed.
2.0 PRECAUTIONARY STATEMENTS

2.1 HAZARD TO HUMANS (AND DOMESTIC ANIMALS) CAUTION
Causes moderate eye irritation. Avoid contact with skin, eyes, open wounds or clothing. Wash thoroughly with soap and water after handling.

2.2 Personal Protective Equipment (PPE)
Applicators and other handlers must wear:
• Long-sleeved shirt and long pants
• Waterproof gloves
• Shoes plus socks
Follow the manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

2.3 User Safety Recommendations
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

2.4 Environmental Hazards
Do not contaminate water when disposing of equipment washwaters.

3.0 DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

4.0 STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal of waste.
Storage: Store in a cool, dry place. Keep containers tightly closed when not in use. Store in temperatures above freezing and below 32°C (90°F).

Pesticide Disposal: Pesticide waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility in accordance with federal and local regulations.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage

Keep out of reach of children and animals. Store in original containers only. Store in a cool dry place and avoid excess heat.

In case of spill, avoid contact, isolate area and keep out animal and unprotected persons. Confine spills. Call FMC: (800) 331-3148.

For nonfine spill: Cover to prevent dispersal. Place damaged package in a holding container. Identify contents.

Pesticide Disposal

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal

Wrap FirstLine™ GT Termite Bait Station and put in trash. Plasti-bags: Completely empty bag, then dispose of empty bag in sanitary landfill. If impossible, or if allowed by state and local authorities, burn, do not burn, stay out of smoke.

Food Handling Establishments: Places other than private residences in which food is held, processed, prepared or served.

Non-Food/Feed Areas: Includes garbage rooms, laundries, drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, garages, mop closets, and storage (after cannabinoing). Areas conducive to termite attack or through which termite may enter should be treated.

Food/Feed Areas: The FirstLine GT Termite Bait Station is not for use in commercial food/feed areas. Do not use in food/feed areas food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed. For indoor application in the home or similar areas, do not place FirstLine GT Termite Bait Stations in an area where there is the possibility of contaminating or surfaces that come in contact with food, Not for use in USDA and Poultry Plants.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FirstLine GT Termite Bait Stations are ready to use and filled with a treated cellulose matrix containing 100 ppm sulfurprim, a slow acting insecticide. The use of this bait suppresses or controls termite infestations. The termite activity depends on the species involved, weather and the time of year. Termite require 1 to 4 mont more for control in and on commercial, industrial, institutional and dental buildings and structures, and their immediate surrounding areas. Permitted areas of use include but are not limited to industrial buildings, apartment buildings, laboratories, and the non-food/feed areas of stores, warehouses, schools, nursing homes, offices, restaurants, hotels, churches, food manufacturing, processing and service establishments. The bait is effective against: Coptotermes, Heterotermes and Retortermes termites.

For Structures With an Active Infestation

For use in and around residential, day care and pre-school structures apply up to 60 FirstLine™ GT Termite Bait Stations per unit.

A unit is a single family dwelling (Single home or Townhouse garage, whether attached or detached is considered part of a pri

For use in and around commercial, industrial and institutional structures (except day care or pre-school structures) use as many FirstLine™ GT Termite Bait Stations as needed.
